

*olivactive*® 

The word "olivactive" is written in a green, lowercase, sans-serif font. To its right is a green logo symbol consisting of a triangle with a stylized olive branch inside it.

*Olea europaea*

- **Olivactive®** is **olive leaves** extract. **Olive leaves** are a natural source of Oleuropein with bioflavonoids standardised by HPLC.
- **Olive leaves** have been used traditionally in Mediterranean culture as a natural remedy for the treatment of many ailments.
- **Olivactive®** is designed to enhance health naturally without side effects.
- The extract is produced from a unique source of ancient **olive trees** in Spain.

## Scientific Evidence

Studies show that oleuropein has antibiotic properties and is more effective than other natural antibiotics. Another study found the antimicrobiological activity of oleuropein could protect against fungi and other bacteria. It also found that oleuropein is effective in fighting the effects of prolonged antibiotic use, which can increase the chances of developing infections and weaken the immune system.

## Indications, Claims and Dose

- **Dose:** 500mg per day.
- For use in liquids, tablets, two-piece hard capsules and soft-gel capsules.
- Helps maintain/support immune system.
