

AFFRON[®]EYE

Crocus sativus

- **Affron®Eye** is obtained from premium **saffron** carotenoids, which are natural antioxidants that neutralise free radicals that cause eye damage.
- It has high stability due to its natural antioxidant and scavenging properties.
- Standardised to 3% crocin.

How does it work?

- Due to the high antioxidant capacity of crocins, the major carotenoids in **saffron**, **Affron®Eye** acts to counteract oxidative stress on the eye and prevent age-related macular degeneration (AMD).

Scientific Evidence

- In a 3 month placebo-controlled, double blind crossover study, 25 patients with early age related macular degeneration (AMD) received **saffron** or a placebo. Treatment showed that short-term **saffron** supplementation improves retinal flicker sensitive in early AMD.

Indications, Claims and Dose

- Recommended dose: 20mg extract per day.
- Helps maintain/support eye/macula health.
- Helps maintain/support retina health.
- For use in tablets, two-piece capsules, soft-gel capsules and powder.
